Abstract

Background: Briefly introduce the research problem, its significance, and the knowledge gap (2–3 sentences).

Objective: Clearly state the aim or hypothesis of the study (1 sentence).

Methods: Describe the materials, methodology, experimental design, analytical techniques, or statistical methods used (3–4 sentences).

Results: Present the key findings with important quantitative or qualitative outcomes. Include significant values, trends, or observations where applicable (4–5 sentences).

Conclusion: Summarize the major conclusions, practical implications, and potential applications of the study (2–3 sentences).

Keywords: 3–5 keywords separated by semicolons.

Note: Prepare the abstract using **Times New Roman, 12-point font**, single line spacing **1.5**, and **justified** alignment. The abstract should be **250–500 words** and should include the following sections: **Background, Objective, Methods, Results, Conclusion**, and **Keywords**. The title

should be in **bold uppercase** and centered. Do not include figures, tables, citations, or references unless explicitly required by the conference guidelines.
